### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The closest prior art, Jupe et al. (WO 02/069745A1 or US 2002/0166563), does not teach a tobacco end filter segment with a greater particulate removal efficiency than the mouth then filter segment (lower particular removal efficiency). Although Jupe et al. teach that the two segments may have different particulate removal efficiencies, the application has persuasively argued that the specification of Jupe et al. teaches that the tobacco end filter segment should have the lowest particulate removal efficiency and provides no support for reversing the segments or relationship.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL J. FELTON whose telephone number is (571)272-4805. The examiner can normally be reached on Monday to Friday, 7:30 AM to 4:30 PM EST.
